## A SIMPLE PROMISE

WE GUARANTEE that you will be satisfied with every application. If you are not completely satisfied, we will re-service your property at no charge. If you are still not satisfied, we will cheerfully refund the cost of your application. Due to the environmental issues we face, this guarantee does not include plant or turf grass replacement.

Larry F. Dorsey, Sr.  
President

## Getting Your Lawn Prepared for a Beautiful Spring

Pre-emergents are a major part of preparing your lawn for the spring. They deter weeds from flourishing in your lawn by attacking their root system and at the same time give the lawn root system a boost of prevention against cold along with a taste of vitamins.

**YOUR LAWN HAS CERTAIN NEEDS THIS TIME OF THE YEAR. HERE ARE A FEW THINGS TO REMEMBER:**

**Scalp Your Lawn** – to scalp Bermuda grass means to cut grass off the top inch of the dormant layer. This should be done in March or April when the grass is turning green. This will make your grass grow and look better.

**Core Aeration** – Loosens compacted soil and allows for a healthier and stronger root system.

**Q: How do I know if a yard needs aeration?**

A: Lawns with known clay soils, heavy traffic, more than ½" of thatch, standing water after irrigation or rain, or lawns that brown easily in heat are all excellent candidates. In reality, any yard, healthy or not, can benefit from annual aeration.

**Q: Will spiking do the same thing?**

A: No. It actually compacts the soil rather than removing the core.

**Q: When should aeration be scheduled?**

A: For warm season grasses such as Bermuda, Zoysia, Centipede and St. Augustine we recommend April - June.

**Q: Is aeration a one-time fix that can be discontinued when the lawn has improved?**

A: No. Aeration needs to be an ongoing part of lawn care just like your fertilization.

**Q: When will positive results be seen in the lawn?**

A: Depending on turf conditions, visual results may or may not be immediate from a single aeration. However, subterranean roots and overall health and stress tolerance will begin to improve almost immediately. Even in the toughest conditions aeration in combination with the appropriate fertilizing, irrigation and weed control program will show dramatic visual results after a second or third aeration.

**Now Available  
Mosquito  
Reduction Service**

Starting at

**\$65.00**

per application

## Are Mosquitoes Keeping You From Enjoying Your Summer Outside?

Let Dorsey's mosquito reduction program help you take back the outdoors. A Dorsey's professional will come out and evaluate your landscape. We will gladly set up a plan to meet your needs, whether you're having an event in your yard that requires a one-time treatment or if you just want to spend more time outside with the kids without getting attacked by mosquitoes. Dorsey's can cater to your needs!

# \$\$ GET PEST CONTROL AT BIG SAVINGS \$\$

Dorsey's has found an improved means of household pest control that is both safer and more cost effective for our customers. It is called perimeter pest control. What this means is you no longer have to schedule to be home to receive your quarterly treatment. We provide an outside perimeter to keep the bugs out and to provide a safe environment inside. This gives you, your family, and your pets a healthier environment to enjoy. The initial treatment may include the inside as well as outside. After this initial visit, you will continue to receive exterior treatments to keep the pest barrier active at a BIG SAVINGS. If you see pests inside, simply call for an appointment for a free service call.

# We Want Your Feedback! How Are We Doing?

JUST TELL US HERE: [DORSEYSERVICESREVIEWS.COM](http://DORSEYSERVICESREVIEWS.COM)  
COMPLETE A TWO-QUESTION FORM AND BE ENTERED TO WIN AN IPAD.  
ONLY TAKES A COUPLE OF MINUTES. WE WOULD APPRECIATE IT!

Ms. Williams of Covington, GA won our last iPad in the December 30, 2014 drawing!

Make sure to enter your review, next drawing will be 3/31/15.

## LAWN CARE PROGRAMS/ TREE & SHRUB PROGRAMS PLUS THE FOLLOWING SERVICES:

- Core Aeration
- Perimeter Pest Control
- Insect & Fungus Control
- Fire Ant Control
- Termite Protection
- Excellent Service
- Guaranteed Results

## Beefy Cowboy Mac and Cheese

INGREDIENTS:

3 Tbsp. butter, divided	2 cups 2% milk	8 ounces whole wheat medium pasta shells [or regular medium pasta shells], cooked and drained
1 lb. lean ground beef	1/4 cup flour	
1 medium onion, chopped	1/2 cup salsa	
	1 cup shredded low fat cheddar cheese, divided	

### DIRECTIONS:

Preheat oven to 375°.

Melt 2 tablespoons butter in large skillet over medium-high heat. Add ground beef and onion and cook, stirring occasionally, 5 minutes or until beef is browned and onion is tender.

Whisk together milk, flour and remaining butter in medium bowl. Stir milk mixture into skillet and bring to a boil, stirring constantly. Reduce heat to low and cook 4 minutes or until thickened. Remove from heat; stir in salsa and 1/2 cup cheese.

Add cooked pasta and toss. Pour into 2-quart shallow baking dish and sprinkle with remaining 1/2 cup cheese. Bake 15 minutes or until golden brown.
